Developed a comprehensive gatepass monitoring system connecting data for all delivery and receiving items, demonstrating strong data management and analytical skills.
- ✓ **Excel Automation Expertise**
Created an automated program in Excel that generates unique 5-digit numbers and calculates averages, showcasing advanced formula and VBA scripting abilities.
- ✓ **Web Development**
Currently enhancing skills in web development with HTML and CSS, with plans to advance to Java and other tools.
- ✓ **Network**
Actively studying networking principles to expand understanding and skills in network setup and management.
- ✓ **Image Editing and Design**
Experienced in Adobe Photoshop for image editing, logo creation, and producing professional handbooks.
- ✓ **PowerPoint Presentation Skills**
Skilled in creating professional PowerPoint presentations; developed impactful presentations for current company projects.
- ✓ **3D and 2D Modeling**
Proficient in AutoCAD and SolidWorks for creating detailed 3D and 2D models; successfully completed complex 3D modeling projects using SolidWorks.

EXPERIENCE

ICT Technical Officer/Sales Officer (August 2023 - January 2024)

CK Galvanizing Corporation - Block 5 Lot 6A Main Drive, FCIE Compound Bo. Langkaan, Dasmariñas Cavite

- **Managed Communication Systems** - Performed data backups and ensured all company-owned work was saved, maintaining seamless communication and data integrity.
- **Network Connectivity** - Installed and configured wireless networking equipment; monitored LAN and Wi-Fi to ensure full coverage, crucial for maintaining guest and staff connectivity.
- **Technical Support** - Evaluated connectivity issues, equipment, software, and hardware; responded to IT issues, ensuring minimal downtime and optimal system performance.
- **System Optimization** - Assisted with the design, implementation, and support of new software and features, enhancing operational efficiency.
- **Training and Support** - Set up equipment for new users and employees; provided ongoing support to ensure effective use of technology.
- **Security Maintenance** - Oversaw troubleshooting for system errors and ensured system optimization for all technology resources.
- **Policy Implementation** - Implemented work processes for the ICT Department in collaboration with DCC for ISO standards.
- **Technical Design** - Created 3D and 2D drawings to support operational needs.
- **Data Monitoring** - Tracked delivery information and monitored all incoming and outgoing data within the company.
- **Logistics Coordination** - Prepared and managed delivery and goods receipts; monitored all documents related to delivery and outgoing items.
- **Client and Manager Liaison** - Communicated with clients to update them on the progress of their items and suggested improvements to managers.
- **Operational Support** - Utilized track scale equipment for weighing customer trucks and supported coworkers with documentation and form creation.
- **Quality Assurance** - Prepared Zinc Certificates for zinc thickness measurements.

Process Engineer/Technician (January 2023 - July 2023)

Hiblow Philippines Inc. - First Cavite Industrial Estate Block 4 Lot 2, SEPZ, Brgy. Langkaan, Dasmariñas, Cavite

- **Documentation and Analysis** - Developed engineering change applications and conducted trials, contributing to process improvements and data-driven decision-making.
- **Technical Implementation** - Managed PLC programming work and mechanical design projects; installed new equipment to enhance production capabilities.
- **Issue Resolution** - Conducted investigations to resolve technical issues, ensuring continuous production flow and product quality.
- **Product Evaluation** - Evaluated products and communicated with suppliers to maintain standards and facilitate technical communication.

QA/QC Engineer

(June 2022 - November 2022)

Philippines Ogami Corporation - Block 5 Lot 6A Main Drive, FCIE Compound Bo. Langkaan, Dasmariñas Cavite

- **Product Evaluation** - Conducted thorough evaluations of products, ensuring high-quality standards.
- **Report Generation** - Developed corrective action reports and 8D reports, addressing and resolving quality issues.
- **Process Development** - Designed check sheets, CPK/PPK, and processes for product testing, enhancing quality control measures.
- **Supplier Communication** - Worked closely with suppliers to ensure product quality and specifications, maintaining high standards.
